
SHREYA T

Test Engineer · Manual Testing · Java & Selenium · REST API · SQL

Bengaluru, India | +91 7483211279 | shreyathimmarajuv@gmail.com

PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Test Engineer with training in Manual Testing, Core Java, Selenium WebDriver, REST API Testing, and SQL. Strong understanding of SDLC, STLC, test case design, defect tracking, and web application testing. Hands-on experience in creating test cases, executing test scenarios, and validating application functionality. Completed Software Testing training at QSpiders, Bengaluru, and seeking an opportunity to contribute to quality assurance and software testing processes.

TECHNICAL SKILLS

Manual Testing	SDLC, STLC, Test Plan, Test Case Writing, Black Box & White Box Testing, Functional, Regression, Smoke, Sanity, Integration Testing, Equivalence Partitioning, BVA, Bug Life Cycle (New, Assigned, Open, Fixed, Retest, Closed, Reopened)
Java	Full OOP — Inheritance, Polymorphism, Encapsulation, Abstraction; Strings, Arrays, Collections (basic)
Selenium	WebDriver, XPath & CSS Selectors, Locators, Page Object Model (POM), TestNG, Cross-browser Testing
API Testing	REST API with Postman, HTTP Methods (GET / POST / PUT / DELETE), Status Code Verification, Request & Response Validation, Response Time Validation
SQL	CRUD Operations, Normalization, Joins (Inner, Left, Right, Full), Sub Queries — 100+ queries practiced; MySQL, SQL Plus
Tools	Eclipse IDE, Postman, Agile Scrum (Sprint Planning, Standups, Retrospectives)

PROJECTS

Manual Testing

- Written detailed test cases and test scenarios for real-world web application features
- Applied testing models — Equivalence Partitioning and Boundary Value Analysis
- Used SDLC and STLC knowledge to plan and execute complete structured testing cycles

Selenium Automation

- Automated login, navigation, form submission, and data validation flows using Selenium WebDriver + TestNG
- Implemented Page Object Model (POM) for reusable, maintainable code; tested on Chrome and Edge

REST API Testing

- Tested APIs using GET, POST, PUT, DELETE; verified HTTP status codes and response times
- Validated JSON request/response structure and performed complete CRUD operation testing

SQL Practice

- Practiced 100+ SQL queries covering CRUD, Inner/Left/Right/Full Joins, Sub Queries, and Normalization

EDUCATION

Master of Computer Applications (MCA) | 2021 – 2023

2021 – 2023

Mount Carmel College, Bengaluru

Relevant Coursework: Data Structures, Database Management Systems (DBMS), Object-Oriented Programming (Java), Software Engineering, Computer Networks, Web Technologies, Software Testing

TRAINING & CERTIFICATIONS

Software Testing Training | 2026

QSpiders, Bengaluru

- Completed comprehensive training in Manual Testing, Core Java, Selenium WebDriver, TestNG, REST API Testing (Postman), and SQL
- Gained hands-on experience in test case creation, test execution, defect reporting, and automation testing
- Worked with Agile Scrum methodologies and testing best practices

PERSONAL DETAILS

- **Father Name:-** Thimmaraju . V
- **Mother Name :-** Kalavathi . B . S
- **DOB :-** 07/03/2000
- **Gender :-** Female
- **Martial Status :-** Single
- **Nationality :-** Indian
- **Language Known :-** English, Kannada
